Summary

As a Python Django developer with a keen interest in web development, I bring a strong set of technical skills and problem-solving abilities to any web development project. With extensive experience building projects using the Django framework.

Projects

E-Commerce - Built with Python Django Framework

(Python/Django Framework)
https://ajitkrsingh841.pythonanywhere.com/

Multiple user System with customized access to the features. Secure payment gateway integration using Razor pay. Discount code and promotional campaign using cookies and session programming. Responsive and user-friendly interface across devices. High-quality product images and videos with magnification feature for the products to enhance.

NewsApp - ReactJS Application Development

(ReactJs)
Developed an intuitive and responsive user interface, allowing users to browse news articles, filter by categories, and save articles for later viewing. Integrated external APIs (e.g., News API) to fetch real-time news data and displayed it in a structured and visually appealing manner. Sorting facility according to news.
